

Zoom: Transferring a meeting between users

Last Modified on 11/02/2022 11:37 am HKT

Overview

If you would like to transfer a meeting between two users, the easiest way to do that would be using the Scheduling Privilege feature, which allows you to edit and reschedule the meeting to the another profile.

Steps

1. To transfer a meeting from User A to User B, User B needs to access CUHK Zoom Portal (<https://cuhk.zoom.us>) > "Settings", find the 'Schedule Privilege' feature (Meeting > Other > Schedule Privilege), click the  button next to "Assign scheduling privilege to", enter User A's email address, and click "Assign".

Schedule Privilege

User B

You can assign users in your account to schedule meetings on your behalf. You can also schedule meetings on behalf of someone that has assigned you scheduling privilege. You and the assigned scheduler must be on a Paid plan within the same account.

Assign scheduling privilege

Select licensed users who can schedule meetings on your behalf

user.a@cuhk.edu.hk x

Assign Cancel

2. Now User A can go to [CUHK Zoom Portal \(https://cuhk.zoom.us\)](https://cuhk.zoom.us) > "Meetings" page and click on the meeting, edit that meeting, and find the 'Schedule For' section, which will allow him/her to switch from "Myself" to "User B". Save the setting.

Schedule For

User B (user.b@cuhk.edu.hk)

Myself

User B (user.b@cuhk.edu.hk)

Topic

Description (Optional)

Enter your meeting description

3. On Upcoming Meetings page, User A can see his/her own meetings and User B's meetings listed together by select "ALL".

4. With this done, that meeting is officially moved to User B's profile and makes it the official host of that meeting. This allows you to have someone else host a meeting when the original host is unavailable, or there are multiple concurrent meetings scheduled for the same time.

Reminders

- Remember to **remove** the scheduling privilege after moving the meeting. The person with the scheduling privilege can view/edit/add meetings for the person.
- Please note that meetings scheduled using a **Personal Meeting ID** cannot be transferred between users.
