Errors Opening Office Documents on Blackboard with 'Open Office files in the Browser' Enabled in Edge

Last Modified on 13/01/2022 6:19 pm HKT

Microsoft Edge now offers the ability to open office files in the browser using Microsoft's office.com. When this option is enabled, Office documents opened from Blackboard Learn SaaS cause an error.

Either an HTTP 404 error appears:

🔲 🛛 🗾 Content	x Untitled x 🗅 404 - File or directo x Untitled x 🛛 🕥 Microsoft Office Ho x
$\leftarrow \ \ \rightarrow \ \ G$	🖞 https://view.officeapps.live.com/op/view.aspx?src=https%3A%2F%2Flearn-eu-central-1-prod-fleet01-xythos.conten 👔
Server Error	
404 - Fil The resource	e or directory not found. e you are looking for might have been removed, had its name changed, or is temporarily unavailable.

Or the Word online application opens but displays the message "Sorry, there was a problem and we can't open this document. If this happens again, try opening the Document in Microsoft Word."

Workaround

- 1. Use "Save as" to download the file and open it using desktop applications.
- 2. Use another browser to access the files on Blackboard.
- 3. Open 'Settings' in Edge, select 'Downloads', then set 'Open Office files in the Browser' to Off.
