# Hybrid Workshop on Blackboard Learn Ultra Course View, a New User Interface and Workflows

Last Modified on 28/02/2023 3:49 pm HKT

You've been using Blackboard Learn Original Course View, and you want a transformation of the user interface and workflows in it?

Blackboard Learn Ultra Course View (UCV) is an alternative and it is now in pilot. To take a glimpse of UCV, go through the videos on Blackboard Instructor Guide (Ultra Course View) (https://help.edtech.cuhk.edu.hk/docs/blackboard-instructor-guide-ultra-course-view), and Blackboard Help: Original vs. Ultra Highlights (https://help.blackboard.com/Learn/Instructor/Ultra_And_Original_Compared).

And if you would like to get hands-on experience in UCV, please do not hesitate to request a sandbox box (blank testing course) from us at ITSC Service Desk (https://servicedesk.itsc.cuhk.edu.hk) or elearning@cuhk.edu.hk ().

Don't miss the chance to join the following workshop delivered by the vendor to discover a new teaching experience!

**Synopsis:**

The latest experience for Blackboard Learn makes it the most modern LMS available today; it is designed to enhance the learning experience for both educators and students. With a modern and intuitive interface, it offers various features and tools to create engaging and interactive learning environments.

During the presentation, we will showcase the new feature releases and demonstrate how these Ultra tools can benefit both instructors and students from their perspectives.

The newly released features set is a testament that Blackboard Learn is a modern and intuitive learning management system (LMS) designed in collaboration with the global education community, providing students and faculty with a more inclusive, flexible, and insightful experience
